

AbstractTegel

```
classDiagram
    class AbstractTegel
    class ConcreteTegel
    class Decoratie
    AbstractTegel <|-- ConcreteTegel
    AbstractTegel <|-- Decoratie
```

The diagram illustrates a class hierarchy. At the top is the *AbstractTegel* class. Below it are two subclasses: *ConcreteTegel* on the left and *Decoratie* on the right. A vertical line with an open triangle arrowhead points from the midpoint of the line connecting the two subclasses up to the *AbstractTegel* class, indicating that both *ConcreteTegel* and *Decoratie* inherit from *AbstractTegel*.
